Subject: Port and City Community Partnership

As you know, the City of Kalama and the Port of Kalama for many years have enjoyed working together as a supportive community partnership. We have all enjoyed and benefited from this partnership, and it has been a special benefit to the community which we serve.

At our February 21, 2018 City Council meeting a citizen of Kalama brought to our attention that Mayor Mike Reuter attended a public event sponsored by Columbia Riverkeeper and expressed his personal opposition to the Methanol project. The City Council wants it to be clear that his statement was not the official policy or position of the City of Kalama. The City Council fully supports the Port of Kalama's economic development projects within the region.

We want to acknowledge our past relationship, thank you for all you have done, and assure you that the City Council of Kalama is committed to continuing our community partnership.
