

Kalama City Council - Council Agenda Item Information Form

Agenda Item: 4A- Stormwater Plan

Meeting Date November 1, 2018

Prepared by: Coni McMaster, Clerk/Treasurer

Subject: Stormwater Plan Presentation

Summary: Gray & Osborne Engineer Mike Johnson will present the plan and the recommendations for the formation of a Stormwater Utility Formation Study to deal with the stormwater issues the City has faced for many years. The plan contains recommendations for fees to be implemented to fund the utility once formed. See the draft plan for more information.

Recommendation : The Council follow the recommendations included in the study.

Included in the Current Year's Budget YES NO If No – Fiscal Impact:

Funding Source if not included in the current Budget

Alternatives: Continue to react to the stormwater issues as they occur with limited funding and work to maintain the system to avoid overflows and avoid flooding of the downtown and other areas in the City.

► Draft/Suggested Motion: *The City Council accepts the recommendations of the engineers included in the Stormwater Utility Formation Study and directs staff to draft the required ordinances for implementation and funding at a rate of \$_____per ERU of a Stormwater Utility for Kalama.*

Note: Recommended rates are from \$5.50 up to \$8.00 per ERU.
