Subject: 324 Birchwood – Mechanical Permit

Coni,

A mechanical permit was taken out on July 5, 2018 for to add a new A/C unit for the address of 324 Birchwood Drive, Kalama. From reviewing the inspection log Enteck called for a final inspection to be performed on August 27, 2018. On the inspection log Ron Kemp did not sign off on it. This could have been an oversight on Ron's part.

On January 10, 2019 Konrad Weber did a reinspection and since there was no one home at the time he did a visual inspection thru the fence and he said it all looked good. When talking with Konrad about this site he stated that he remembers being at the site before but could not remember the date.

Ms. Neel had taken out another permit in September 25, 2017 and from looking at the permit it stated for Milwaukie Heating & Cooling to call in for a final. From reviewing the log no inspection was called in.

Thank you  
Susan Junnikkala
