Subject: Open the economy

I am asking that our city council help stand up for the constitutional rights of the people. I believe that there is not currently an emergency that warrants this lock-in of the people and small businesses.

For example I have pretty much gone about my life like normal during this time. But instead of supporting small business I am forced to get my needs met at Walmart or order what I need from Amazon. Instead of taking my dogs to the local groomers I have to take them to Petco.

Please tell me the difference.

Why ? Do not small business have the abilities to be smart and cautious? I do not fear this virus. I do fear the overreach of the government and especially the governor of Washington himself.

You are here to represent us the people and from what I am seeing and hearing from others the major feel the same as I do.

Thank you for your time,

Ada Taylor
