Subject: A Voice In Support of the City's Legal Advise

It has come to my attention that Councilman Merz has appealed to the community to write the City in support of his opinion to re-open now thus going against state mandates, the city's legal advise, and jeopardizing city funding.

In an effort to bring balance to any voices that may align with Mr Merz, I and my family wish to state we do not support this line of thinking. Mr Merz does not speak for us.

We support the advise of legal and feel that Mr Merz course of action will cause long term damage to our city if ever it is acted upon.

We strongly support the city, the council people, and the Mayor who oppose this line of reasoning, and trust that the city and those in office who vowed to serve this community within the law will continue to act with reason and in the best interest of our community now and for the future.

We, as individuals of this community, will continue to support our local businesses through this tough time to help them keep their doors open or - once allowed to re-open within the law - help them get back on their feet.

We do appreciate what it takes to daily walk the fine line that your jobs demands. Thank you for your service.

Sincerely,  
Anisa Kisamore  
Citizen since 1993
